Counselor in training and digital project manager. Two years running intake at a dual-diagnosis residential program in San Francisco, where I also rebuilt the systems around the job: the referral pipeline, the utilization reporting, and the Epic templates the program ran on. Before that, five years of agency project management in New York. MHRS, NPI-registered, PMP. M.A. in Clinical Mental Health Counseling in progress (Palo Alto University, expected Jun 2027).

EXPERIENCE

Jan 2024 – Nov 2025

Intake Specialist and Residential Counselor

PRC Baker Places · San Francisco, CA

- Ran intake for four residential houses: 32–48 assessments a month, mostly at jails and hospitals, administering ANSA, AOA-07, SDOH, MSE, and ACE assessments, each written into a treatment plan.
- Digitized intake and referral tracking. Average bed utilization rose from 62% to over 78%.
- Replaced a fax-based referral process across four houses, partner jails, and SF DPH with a digital workflow — online forms, Teams routing, and the agency's referral database, which I extended to carry it. Placements got 25–50% faster and missed referrals dropped to near zero.
- Built the program's utilization reporting: same-day census from Epic, longitudinal trends in Access and Excel, read by agency leadership and SF DPH.
- Owned documentation compliance for intake. Turned Medi-Cal medical-necessity rules into criteria and templates clinicians could apply, audited against them, and fixed what failed. No client of mine went unbilled for want of documentation.
- Served as the site's Epic resource: wrote its template and SmartPhrase library and trained three clinicians on documentation workflows.

Jan 2023 – present

Harm Reduction Program Lead

BAAAHS and related events · San Francisco, CA / festival sites

- Designed the harm-reduction program for a queer arts community's festivals of 200–800 people, and trained the volunteers who run it.

Nov 2021 – Dec 2022

Senior Project Manager

Edelman DxI · New York, NY

- Found senior-labor utilization running 10–15% over target through actual-versus-expected hour analysis in Edelman's reporting platform and Tableau. My staffing recommendations returned it to target, and margin grew 10% year over year.

Jul 2021 – Nov 2021

Scrum Master (Consultant)

Anheuser-Busch · New York, NY

- Led the Scrum transition for the Beyond Beer division, consolidating twelve brand teams into one operating unit. The data-gathering-to-insight pipeline fell from about three days to under 24 hours.
- Trained six teams across the country on agile methodology.

Mar 2020 – Jul 2021

Senior Project Manager

Jump450 Media · New York, NY

- Built a Slack-integrated approval pipeline (Zapier, Airtable) between Wegmans and Jump450. Asset time-to-market fell from 2–3 weeks to 3–4 days, with granular data on each asset's social and digital ad performance.
- Rebuilt campaign reporting in Tableau. Saved each team member 4–6 hours a week and cut media-team labor on the account by about a third.

2019–2020 **Creative Project Manager**, Future Colossal · New York, NY
2016–2019 **Producer**, Evia Events · Seattle, WA
2009–Present **Arts Producer & Grant Administrator**, Self-Employed (Sleep Nod) · USA
2007–2012 **Onsite Outreach & Care Coordinator**, Lifelong AIDS Alliance · Seattle, WA

EDUCATION & CREDENTIALS

expected Jun 2027 **M.A., Clinical Mental Health Counseling** · Palo Alto University
2013 **B.A., Comparative History & Theater Production** · University of Washington — Minor in Dance

Mental Health Rehabilitation Specialist (MHRS), CA DHCS · NPI-registered · PMP, Project Management Institute (#3151150) · Google Data Analytics Certificate

SKILLS

Clinical Intake & Assessment · Billable Documentation & Reimbursement Compliance (Medi-Cal) · Epic Superuser & Clinical Template Design · HIPAA & PHI Handling · Project Management (PMP) · Agile / Scrum · Data Analysis & Reporting (Access, Excel, Tableau, Airtable) · Workflow Automation & No-Code Integration (Zapier, Airtable, Slack)
